

# Problem 5

Nikita Jerschow

September 11, 2018

## 1 Goals

My goals for this class is to increase my knowledge using Python to do physical calculations, as well as learn some new tricks and shortcuts in Python.

## 2 Background

I am a Computer Science/Physics Major. I have experience using Python and Git, as well as a few other languages.

## 3 Plans

After graduating I am planning on going to graduate school for Computer Science, and (hopefully) I will go on to work somewhere where I can utilize and develop my Computer Science skills.
